ISO 9706-certified Media

- HP Coated Paper
- HP Heavyweight Coated Paper
- HP Bright White Inkjet Paper

Archival paper is meant to be used for applications of high legal, historical, or significant value. Print durability is a key element in HP's ink and printer development programs, and the archival performance of prints made by HP inkjet printers has been certified by independent testing agencies. ISO 9706 is the international standard for "permanent" paper.

HP Large format printing material are recyclable through commonly available recycling programs.

CARBON FOOTPRINT IMPROVEMENT

Environmentally responsible initiatives across the product life cycle

HP approaches sustainability at each stage of the product life cycle, from research and development to manufacturing and distribution.

Research, development, and design

HP Labs and HP's business groups are exploring ways to incorporate design principles that contribute to a circular economy, including through increasing the use of recycled materials (in place of raw materials).

1

Manufacturing

HP collaborates with our manufacturing partners and suppliers to understand, reduce, and report the environmental impact of product manufacturing.

2

Packaging and transport

HP strives to develop more packaging options and make transport choices to decrease fuel use and associated greenhouse gas emissions.

3

5

Reuse and recycling

HP works with a global network of vendors in 67 countries and territories worldwide to collect, process for resale, and/or recycle returned products, as well as qualify recycled materials for use in new products.

4

Use

HP strives to improve the energy efficiency and resource consumption of our products and solutions, and makes it easy for customers to consider the environment when buying and using our products.
