

# HP Clear Film

## The HP DesignJet printing system—the complete solution

HP DesignJet printers, Original HP inks and printheads, Original HP printing materials and HP Scitex printers, are designed to work together as a system to provide reliable, consistent results with every print.

## Give your ideas a photo-realistic finish

Keep your projects on track and demonstrate the quality and professionalism of your work with this optically clear, recyclable<sup>1</sup> film. Produce multiple overlays and transparent images with excellent line quality and consistent, vivid color.

### Accomplish more with consistent results every time

Look to this professional-quality film to present your professional best. Produce sharp line quality and consistent, vivid color with a film designed to provide excellent bleed control and strong ink adhesion to prevent ink transfer between overlays.

### Keep a brisk pace from one project to the next

Meet your project deadlines. Compatible with a wide range of HP DesignJet printers using both Original HP dye- and pigment-based inks, this optically clear film provides high-quality, consistent image quality print to print and roll to roll.

### Print with the environment in mind

Help meet the environmental objectives of your company—and your clients. HP Clear Film is included in the HP Large Format Media take-back program<sup>1</sup>, a free and convenient return and recycling program.

<sup>1</sup> HP Large Format Media take-back program availability varies. Some recyclable HP papers can be recycled through commonly available recycling programs. Recycling programs may not exist in your area. See [HPLFMedia.com/hp/ecosolutions](http://HPLFMedia.com/hp/ecosolutions) for details.

| Target customers                                   | Applications                              | Benefits  |
|--|---|---|
| Architects   | Trade show and event displays             | Sharp line quality; consistent, vivid color                                 |
| Engineers  | POP and retail displays                   | Excellent bleed control for sharp images                                    |
| Geographic Information Systems (GIS) professionals | Geographic Information Systems (GIS)      | Strong ink adhesion prevents ink transfer between layers                    |
|  | Architecture (AEC) and engineering (MCAD) | Compatible with both Original HP dye- and pigment-based inks                |
|  |   | Recyclable through the HP Large Format Media take-back program <sup>1</sup> |

## Technical specifications

### HP Clear Film
