

HP 75-g/m² Bond with ColorPRO Technology, 3-in Core for HP PageWide XL printers

The HP large format printing system—the complete solution

HP PageWide XL printers, Original HP PageWide XL pigment inks and printheads, and Original HP printing materials are designed to work together as a system to provide reliable, consistent results with every print.

Enable fast production printing at an economical cost

See the ColorPRO Technology difference

See the difference. HP 75-g/m² Bond with ColorPRO Technology is designed for HP PageWide XL printers to deliver professional-quality results and is optimized for high-production environments. Produce high-impact graphics with a wide range of colors; precise lines; and sharp, fine detail. HP 75-g/m² Bond with ColorPRO Technology uses 30% less ink and provides up to 30% more color than standard bond papers without ColorPRO Technology.¹

Increase productivity, lower printing costs

Optimize your high-production printing process with the economical, trouble-free performance of HP 75-g/m² Bond with ColorPRO Technology for HP PageWide XL printers. A variety of sizes and bulk tub pallets are available, streamlining workflow for higher productivity and lower costs.

Print with ease—and with the environment in mind

HP large format printing materials are designed together with HP PageWide XL pigment inks and HP PageWide XL printers to provide dependable, quality performance. Meet the environmental objectives of your company—and your clients—with this recyclable² paper.

¹ Based on CIElab gamut and ink usage data collected from the HP embedded web server after printing on HP PageWide XL8000 using firmware: NGRGA_07_29_01.4 comparing HP 75-g/m² bond paper printed in 'HP 75-g/m² bond poster' setting in uniform areas mode and a standard office paper printed in '<90-g/m² plain paper' setting in uniform areas mode.

² Can be recycled through commonly available recycling programs.
